

## Mobile Printer Impact Thermal Portable Printer SP-RMT10i

### Light weight for taking conveniently

- Multi-interface
- Vehicle charger support
- Super battery capability
- Continuing printing when battery in charging

### Specification

|                          |                                                                                                          |
|--------------------------|----------------------------------------------------------------------------------------------------------|
| Printing Method          | Thermal Line                                                                                             |
| Resolution               | 8 dots/mm, 384 dots/line                                                                                 |
| Effective Printing Width | 48mm                                                                                                     |
| Printing Speed           | 62mm/s(average)                                                                                          |
| Character Set            | ASCII, GB18030(Chinese), BIG5                                                                            |
| Print Font               | ANK: 12 x24, 9 x24 Chinese: 24 x 24                                                                      |
| Self-defined Character   | Yes                                                                                                      |
| Barcodes                 | 1D:UPC-A, UPC-E, EAN-13, EAN-8, CODE39, ITF25, CODABAR, CODE93, CODE128<br>2D:PDF417, QRCODE DATA mATRIX |
| Driver                   | Windows XP/Windows Vista/Windows 7/Windows 8/Linux                                                       |
| Graphic                  | Support bitmap downloading                                                                               |
| Paper End Sensor         | Yes                                                                                                      |
| Overheating Protection   | Yes                                                                                                      |
| Black Mark Location      | Yes                                                                                                      |
| Auto Sleeping            | Yes                                                                                                      |
| Interface                | USB+Bluetooth                                                                                            |
